

Silicon Carbide Heating Elements and Accessories

When you need the best quality, price, delivery, and technical support, call Keith first! *Why?*

1. You will always get the quality you need from your preferred manufacturer.
2. The delivery time will be the same as from the factory, and sometimes even shorter. Ask about Keith's blanket order program.
3. Our pricing will be lower, as all factory prices are discounted.
4. Keith offers comprehensive element and furnace technical support services not available from element manufacturers.
5. Our customer service people are among the friendliest and most helpful in the business.

To simplify ordering the correct elements and accessories, fill in the blanks before contacting Keith.
